

**UNIVERSITY of INFORMATION  
TECHNOLOGY and MANAGEMENT**  
in Rzeszow, POLAND

**Project**

**My Portfolio**

**Teacher:**

Nataliia Strukalo

**Class:**

Programming

**Student:**

Kassiyet Bolat w69382

**Field of study:**

Computer Science

## **EXPLANATION**

Website is a portfolio that contains 3 webpages which display my passion for technology, gaming, and web programming. It introduces my background as a driven college student studying Computer Science. The website highlights my favorite TV series and video games, giving visitors a glimpse into my entertainment preferences. It also offers an insight into my journey towards a career in game design and web programming. Through this simple and engaging website, visitors can connect with my interests and aspirations.

## **TECHNOLOGY USED IN THE PROJECT**

- 1) *Visual Studio Code - is a lightweight and powerful code editor developed by Microsoft. It is widely used by developers for writing, editing, and debugging code across various programming languages. Here is a simple explanation of what Visual Studio Code is and what makes it popular among developers.*

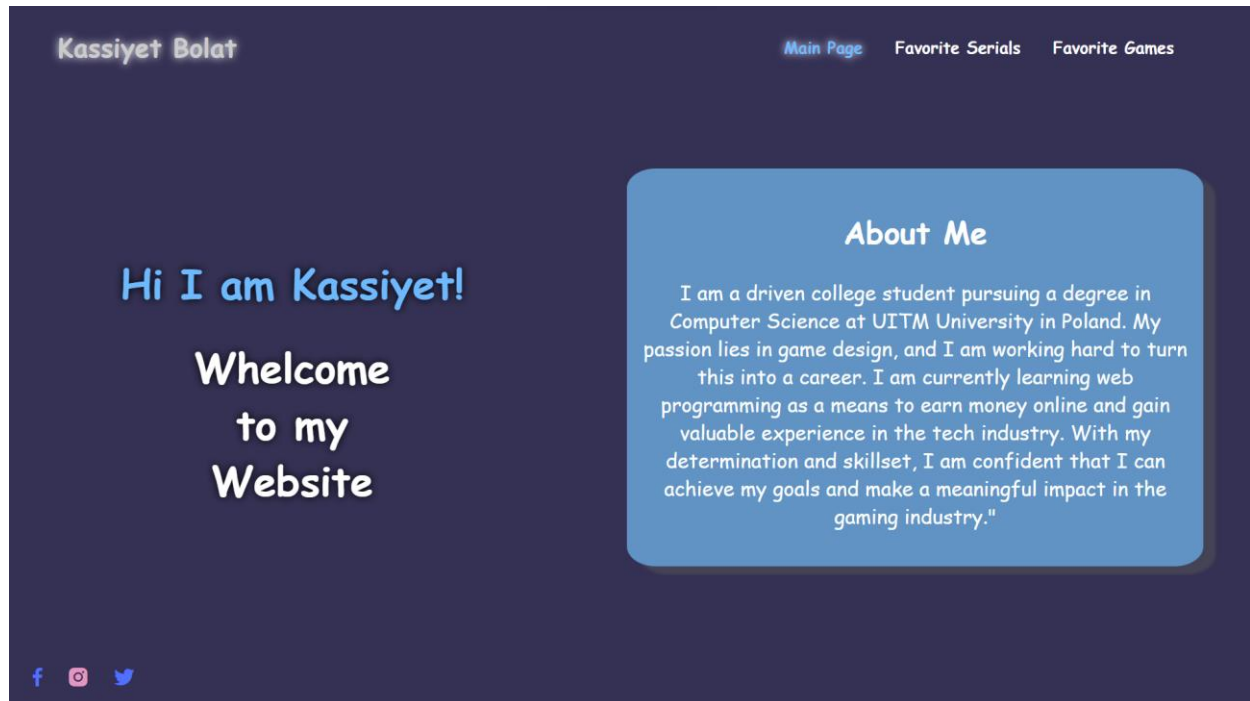

## **HOW DID I CREATE THE SITE**

*I used simple HTML, CSS, and JavaScript to create the website.*

**Home Page:** The homepage sets the tone with a captivating introduction. "Hi, I am Kassiyet!" The bold statement welcomes visitors and invites them to explore the exciting world of this aspiring computer scientist. My enthusiasm shines through, and you will be immediately drawn to my journey in the tech industry.

**About Me:** I share my passion for game design and my determined pursuit of turning it into a successful career. A college student studying Computer Science at UITM University in Poland, I highlight my commitment to learning and growing in the field. I am also exploring web programming to gain experience and earn online, further highlighting my dedication to success.

**Connect with Kassiyet Bolat** on social media through the contact section. Follow his journey, get inspired by his interests, and stay updated with his latest updates.

**Favorite Serials:** Discover my love for captivating television series. In this section, I share my favorite serials with detailed descriptions. From iconic shows like "Breaking Bad" to the witty comedy of "The Office" and more, you will get a glimpse into my entertainment preferences and storytelling interests.

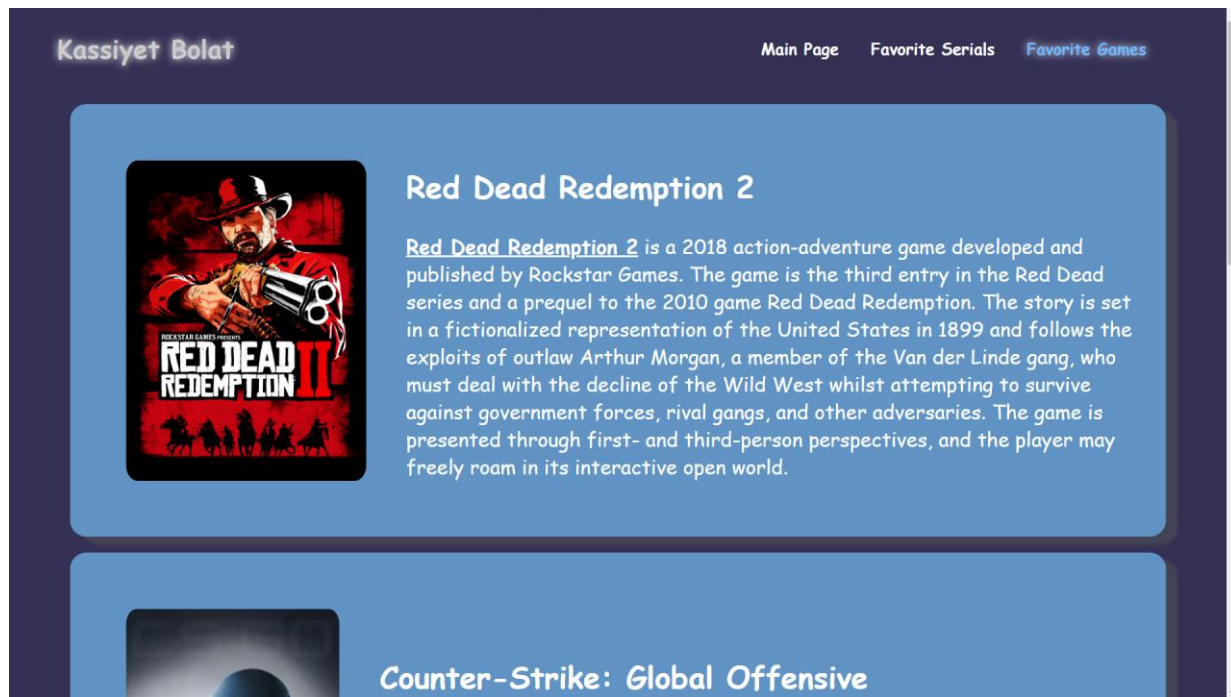

I used JavaScript to create slider for my TV shows. Clicking the buttons on the sides to change the pages.

```

1  var index = 1;
2  var Box1 = document.getElementById("Box1");
3  var Box2 = document.getElementById("Box2");
4  var Box3 = document.getElementById("Box3");
5  var Box4 = document.getElementById("Box4");
6  var ButtonL = document.getElementById("Left");
7  var ButtonR = document.getElementById("Right");
8  ButtonL.onclick = function ClickedL(){
9      index -= 1;
10     if( index <1){
11         index = 1
12     }
13     console.log(index);
14     switch (index){

44             Box3.style = "Display: flex;";
45             break;
46         case 4:
47             Box3.style = "Display: none;";
48             Box4.style = "Display: flex;";
49             break;
50     }
51     if( index >4){
52         index = 4;
53     }
54     console.log(index);
55 }
56 }

```

**Favorite Games:** Step into the world of gaming with my favorite games. I introduce you to thrilling adventures like "Red Dead Redemption 2," the tactical excitement of "Counter-Strike: Global Offensive," the realistic battles of "Squad," and the creative sandbox experience of "Terraria." It is evident that gaming is not only a hobby but a source of inspiration for my future in the tech industry.

**Conclusion:** Kassiyet Bolat's portfolio website is a window into his world of aspirations and achievements. With a strong focus on game design, technology, and web programming, he is poised to make a significant impact in the gaming industry. His passion for games or technology, or simply want to be inspired by a driven individual, Kassiyet's portfolio website is the perfect place to explore and connect.
